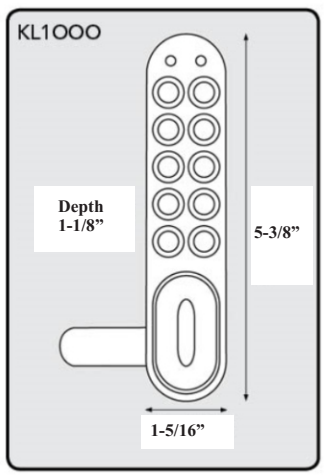
KL1000 Series

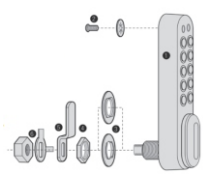
This neat lock is easy to fit, taking just a few minutes to remove the existing cam lock and making an additional top fixing.
Kl1000 Classic can also be fitted to a locker or cabinet that does not have an existing locking device - just drill another hole.
Once in place the lock will perform up to 15,000 openings on just two AAA batteries. Access control without the need for keys.

Easy fit.
11 individual round buttons.
15,000 openings from 2 x AAA cells (supplied).
Battery override.
Ideal for cabinets, lockers, cupboards, medical carts, data racks, safes.
Silver grey & black finishes available from stock.
Left, right and vertical versions.
IP55 rated when used with the rubber door gasket - separate part
Not suitable for a Chlorine environment
Use in offices / schools / warehouses / hospitals / care homes / nurseries / hotels / leisure facilities / the home
NetCode web-based code creation available (KL1000 NetCode)



The KL1000 Classic has 4 code levels available:

8 digit Master Code
8 digit Sub-Master Code
4 digit User Code
6 digit Technician Code



How does a KL1000 Classic operate?
Private Function

This is the most common function and used where the same code will be repeatedly used, e.g. a pupil in a school or an employee with the same locker in the workplace.

Public Function

In this function the KitLock operates with a single User Code. The user enters their own personal four-digit code. This locks the lock. The same code is entered once only to open the lock before being erased and ready for the next new user. This function is used for short term, multi occupancy applications, e.g. a locker in a leisure centre.

Part #	Door Thickness	Orientation	Price
CLKL1006KIT-SG-VERT	Kit with both spindles to fit 1/4” to 1”	Vertical Mount	$111.00

Part #	Door Thickness	Orientation	Price
