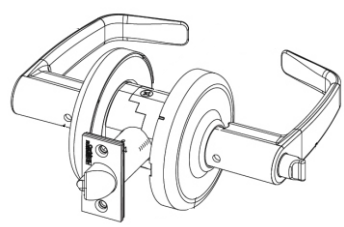
CL3100 Series Vandal Resistant Cylindrical Lever

Grade 1

The CL3100 series is a grade 1 lever lockset manufactured with the highest quality materials to ensure strength, durability and quiet operation. Available in all standard architectural finishes, the CL3100 series subtly complements any high-use commercial, industrial and institutional application.

T-zone construction: direct linkage with fixed alignment between the hub and the latchbolt is the best construction for quietly and effectively operating the latchbolt. For this reason, Corbin Russwin interlocks the aligning and latch tubes, which form a rugged torque resistant "T" in the critical twist area. This "T-zone" construction, combined with long lasting components, makes t-zone lever locks outstanding!

Newport
NZD



Features
Hand: non-handed
Door thickness: 1-3/4" - 2"
Backset: 2-3/4"

We stock the full line of Corbin Russwin keyways. See list of key blanks on page 168

Anti-Ligature

Ligature Resistant Mortise Lock (special order)

BHSS

Part of the Behavioral Health Series® of products, the ML2000 Series mortise lock with BHSS trim provides an innovative solution for behavioral health environments. The unique integrated lever and escutcheon combines aesthetics with safety. Ease of operation, along with the strength and versatility of the ML2000 Series mortise lock allows its use in many applications.

BLSS

With an array of functions, this trim can be used on virtually any opening in healthcare applications. Sloping surfaces and overlapping rose and lever address safety concerns common in behavioral health. Optimal for tough environments, the ML2000 Series mortise lock provides impressive strength and reliability.

HPSK

The ML2000 Series mortise lock with push/pull paddle trim provides an aesthetically pleasing alternative to products with standard push/pull trim. Multiple mounting orientations, hands free operation and a sleek, aesthetic form, make the ML2000 Series mortise lock ideal for use in healthcare facilities and educational facilities.

Unit Locks

The Unit Lock's pre-assembled, unitized construction is ideal for projects where installation costs are to be minimized.
ideal for high-traffic commercial, institutional and industrial applications.
