TKM-100 Tubular

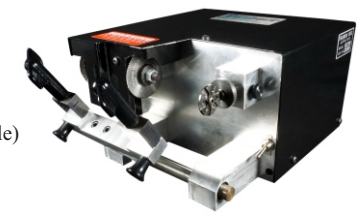
Framon's TKM-100 is known throughout the industry as the foremost machine in tubular key cutting. Everything you need to originate almost any tubular key in use today is included with the TKM-100

Features a collet that can accommodate all three size tubular keys. No fumbling with changing jaws or adapters. Simply tighten the chuck closer – the self adjusting collet easily accepts any size key.

FRTKM-100 $3,798.00

DBM-1 Flat Steel Key Duplicator

Features of the DBM-1:
Specialized for duplicating flat steel keys such as safety deposit box, locker, and padlock keys.
Accommodates blanks up to 2-1/2″ long.
Equipped with a .045″ carbide slotter and wire deburring brush (nylon option available)
Rotating guide accommodates up to six different cutter widths: .035″, .055″, .066″, .088″, and a combined .100″ cut
Cuts Master Padlock corrugated keys, locker, letterbox, and safety-deposit box keys



FRDBM-1 $2,741.67

JD-12 Detention Key Duplicator

An interchangeable guide allows the machine to be converted from cutting paracentric-style keys to cutting mogul keys. All cutting wheels for the machine are made of solid carbide. Changing the machine over from paracentric to mogul takes approximately one minute.

The JD-12 is preset at the factory to cut paracentric keys; the MOGUL KIT (part number JD-12MK) is available separately.

FRJD-12 $3,698.00
