Okay's KEY SAFE

This is the original key safe! If it doesn't say okay's, it's not the original. Since 1959 it has been without equal for the safety of your keys. Locksmiths, prison guards, security personnel, postal workers, casino workers, janitors and police officers carry their keys on okay's key safes. They are very popular with professional businessmen as well.

The okay's key safe is secure, convenient, handy, dependable and made in the USA! The 39-nxb (black) is non-reflective and comes with a black key ring.

HYDROSORBENT® dehumidifiers

A

Silica Gel Hydrosorbent® Dehumidifiers protect your valuables and supplies by 'drinking up' almost-indetectable moisture in camera cases, small cabinets, closets and storage spaces.

Non-toxic: No harmful vapors, no chemical reactions or stains. Safe for foods, medicines, sensitive materials, electronics, clothing, collectibles, and more.

Can be reused indefinitely: buy it once, use it forever. And unlike other dehumidifying products, our units require no electricity, no refills and no replacement parts. Reactivate your unit easily in any conventional oven, so it can be used for a lifetime of moisture protection. Each hydrosorbent® dehumidifier has a built-in indicator that signals when it is saturated and ready to be reactivated.
