networx

Trilogy Networx locks eliminate door−to−door programming audit trail retrieval by communicating wirelessly via ethernet or 802.11 b/g, while providing all original trilogy standalone lock's functions they provide a quick, easy, economical access system with advanced features & functions, like automatic schedules, event logs and support for 2000 doors and 5000 existing prox. Id cards/badges, but with no wires to run, and no access panels or power supplies to buy or install. At its simplest it's one grade 1 durable wireless lock per door, installed in about an hour, all communicating to a single gateway (each gateway controls up to 63 locks), networked to any non−dedicated windows-based pc.
In addition to wireless trilogy Networx' unsurpassed battery-life, exceeding 5 years, they feature new network-wide capabilities, executed from any lock or the network's PC, including emergency priority global lockdown deployed in seconds, and you can activate (non-priority) system-wide free-passage or locking modes from the PC. For existing trilogy installations, original standalone and new trilogy Networx locks can seamlessly share one common database hosted on free alarm lock DL-windows software.

DL6100 Cylindrical Trilogy Networx Lever

Digital cylindrical lock supporting 5,000 pin user codes
(3-6 digits), 500 scheduled events and 35,000 event audit log.

AirAccess

Now Available! AirAccess® The 1st revolutionarily-easy cellular-based access control system & ACaaS

Grow your business & bottomline faster than ever possible

Easiest to Install and Operate, cloud-based access, wireless panels with standard readers &/or networked wireless locks

Easiest Connection – Cellular communications makes direct connections for you, outside your customers' IT network (no ports to open or static IPs needed)

Easiest Setup – Cloud-based software auto-learns network devices so it's simply plug & play

Easiest to Bid & Budget – Flat monthly system fees, saves enduser accounts the need to devote resource to an on-premise access system – Lowest TCO – Wins more accounts
