The KeySure Key Controller

Using the Keysure Keycontroller is an excellent way to keep track of keys and other items not regularly accessed or being held for emergencies.
The patented device is a simply operated, non-electronic, water resistant, keyless lockbox.
Once snapped shut, THE BOX MUST BE PHYSICALLY BROKEN IN ORDER TO GET TO THE CONTENTS. Each box has large labels for signatures and other identifying information. It's the only confidential, keyless lockbox that forms a security seal.

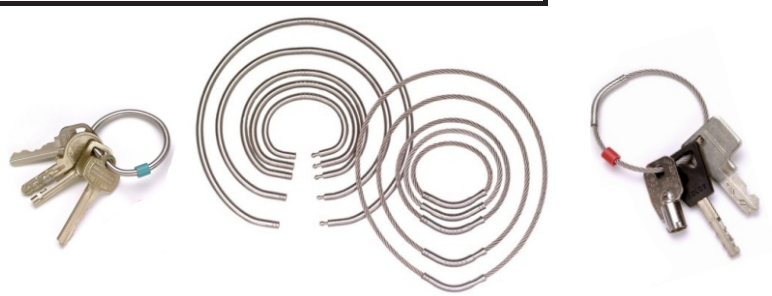
Tamper Proof Key Rings

Our Tamper-Proof Key Rings®, made of solid and braided stainless steel, use a patented closing and sealing technique that allows you to use the whole ring to flip through your keys without them bumping up against a "raised seal" that does nothing to guarantee the security of your keys. Every ring comes engraved with a unique serial number for identification purposes.



Part #	Description	Key Cap.	Price
KS279	1" Diam. Solid Ring	14	$5.25
