Pemko Hinges consists of two full-height, paired and geared leafs. Each geared leaf rotates evenly from top to bottom riding on bearings. The geared leafs and bearings are held together by a full-length channel cap. This assembly retains the smooth, clean lines of the door and frame, while easily supporting heavy vertical loads. HD3 hinges are Grade 3 Heavy Duty, rated for up to 600 lbs. doors. HD1 hinges are Grade 1 Heavy Duty, up to 600 lbs. doors & 2.5 million door cycles.

PEMKONNECT Weather Stripping

We have expanded our PemKonnect modular offerings to include weatherstripping.
The 303AS3684-M perimeter gasket features a rigid jamb weatherstrip that is cut into two segments, allowing the product to fold and fit into smaller packaging for easy, cost-effective transport.
This gasketing features a black silicone insert that effectively seals gaps up to 1/4" between the door and frame in order to prevent the infiltration of sound, fire, smoke, and more.

Additional Features
- Silicone insert provides excellent resistance to extreme environments and temperatures
- Packed in 45" and smaller boxes - reduces storage space, shipping costs, and freight damage
- Sheet metal fasteners are standard; tek screws are available with an upcharge
- Available in mill finish aluminum (A) only
- UL listed and BHMA certified
