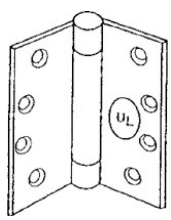
PA48-BP
$12.56

Door Closer Spring Hinges

S. Parker door closer hinges are non-handed for use in either right or left hand operation. The hinges have been fire tested and are listed by underwriters laboratories for use on labeled fire doors. The hinges use a dependable coil spring design and fit into a standard 4-1/2" x 4-1/2" mortise template. The UL1278 hinges may be used with ball bearing hinges on the same door. An anti-friction bearing handles both vertical and horizontal loading, and the spring meets the toughest requirements. The adjustable spring tension may be changed before or after installation. The hinge is torque adjustable, using a set-screw, for closing speed, and comes with a wrench, adjusting pin and directions.



Top Adjustment

Part #	Size	Price
PAUL1278-DCH	4-1/2" - 4-1/2"	$37.81
PAUL1278-PC	4-1/2" - 4-1/2"	$37.81
PAUL1278-PB	4-1/2" - 4-1/2"	$42.58

Half Surface Hinges

Half surface template hinges mount on the surface of the door, and are mortised into the jamb. They work well in applications where the door has a normal hinge bearing surface—the edge—that won't hold screws well. fits the newer standard offset for 4-1/2" hinges.

Part #	Pin	Finish	Size	Price
PA1138-BP4H	Loose Pin	Brass Plated	4-1/2" x 4-1/2"	$29.37

Full Surface Butt Hinges -- Use On Kalamein Doors With Channel Iron Jambs

PAB1129-PC4H 4-1/2" Prime Coat Loose Pin $29.01
PAB1129-PC4HN 4-1/2" Prime Coat Fixed Pin $31.58

Half mortise butt hinges -- use on hollow metal or wood doors with channel iron jambs

PAB1130-PC4HN 4-1/2" Prime Coat Fixed Pin $29.01

Double Action Spring Hinges

Double action spring hinges give closing action from either direction. Energy is stored in the spring as the door is opened, and closes the door after it is released. Spring tension is adjustable at any time. Models are available for doors without hanging strips, and sizes are made to operate door weights, per pair, from 25 pounds to 70 pounds, in thicknesses ranging from 3/4" to 1 3/4" (not all thicknesses work with all models).
finishes are sprayed brass, prime coat and zinc plate.

Single Action Spring Hinges

Contractor Quality®

S. Parker single action spring hinges work well to close residential and commercial doors, and are adjustable.
The half-surface versions 2019 with a mortise jamb leaf of 4-1/2" and a surface door leaf of 5-1/2", fitting standard dimension templates, while the 2020 6 & 2020 7 are non-template styles mount flat to the door, and are mortised into the jamb.

Template and non-template models are available, and finishes are prime coat and, for the radiused model, brass plate.
The lightest model is not adjustable and is suitable for lightweight screen and similar doors.

The 2028 spring hinges have button tips, steel flanges. delivers a positive closing and latching action without using a door closer.
