Hand Cut Letter Stamp Set

Special hand-ground taper assures precision impression alignment. Character identification and one thumb groove.

All our steel stamps are made with carbon tool steel. They're tough enough to keep stamping long after other stamps lose their face. Young Bros. Stamps will mark material up to 50 on the Rockwell C Scale.

We use a special heat treatment so they won't shatter under stress.

Each stamp is manufactured to our high standards right here in the USA.
