Hinges 985BB- Ball Bearing, Full Mortise

Designed for installation on doors of medium weight with average frequency of usage, these solid brass hinges are suitable in light commercial and residential applications. The 985BB features two permanently lubricated, non-detachable, hardened chrome alloy ball bearings that increase load capacity and hinge life.
For wood or hollow metal doors and corresponding frames.

The stainless steel, rust-proof pin is knurled at the top to prevent rising, yet is "free floating" within the barrel of the hinge.
The pin can be easily removed by unthreading each finial and tapping the pin upward. They conform to ANSI A2112 specifications for performance, screw hole and cutout locations.
Standard package: 1 pair, priced per hinge.

Hinges 985- Plain Bearing, Full Mortise

Designed for doors of medium weight and low frequency usage, these solid brass hinges are suitable for residential installations.
Ideal for use on wood or hollow metal doors and their corresponding frames.
The 985 features a stainless steel, rust proof pin which is knurled at the top to prevent rising, yet is "free floating" within the barrel of the hinge.

The pin can be easily removed by unthreading each Finial and tapping the pin upward. They conform to ANSI A2133 specifications for performance, screw hole and cutout locations.
Standard package: 1 pair, priced per hinge.
