# LEVEL 2 INTERMEDIATE AUTOMOTIVE KEY PROGRAMMING

## TAKE YOUR SKILLS. TAKE ON MORE OPPORTUNITIES.

Designed for professional locksmiths and automotive security technicians with 6+ months of automotive key programming experience.

This intermediate-level course goes beyond the basics to help you confidently handle today's more complex vehicle security applications.

**WEDNESDAY**
**SEPTEMBER 30, 2026**

**1:00 PM – 5:00 PM**
**LUNCH WILL BE PROVIDED**

**ACCREDITED LOCK SUPPLY TRAINING CENTER**
1161 Paterson Plank Road
Secaucus, NJ 07094

## WHAT YOU'LL LEARN

- **REAL-WORLD PROGRAMMING SCENARIOS** — Walk through practical scenarios and current bypass methods used in the field.
- **KEY EMULATORS** — Learn when and how to use key emulators effectively for a variety of applications.
- **PIN CODE RETRIEVAL** — Discover techniques for retrieving pin codes on newer vehicles.
- **MYKEYS Pro OVERVIEW** — See how MYKEYS Pro helps you research, identify solutions, and stay prepared.
- **TRANSPONDER KEY CLONING** — Understand transponder technology and see cloning solutions in action.
- **LIVE VEHICLE DEMONSTRATION** — Experience an instructor-led programming demonstration on a demo vehicle.
- **OPEN DISCUSSION & Q&A** — Share experiences, ask questions, and get insights from the instructor and peers.

## COURSE HIGHLIGHTS

- **BUILD ON YOUR EXPERIENCE** — Advance your skills with real-world techniques used by professionals.
- **SEE THE TOOLS IN ACTION** — Watch live demonstrations of ILCO and Advanced Diagnostics tools.
- **STAY AHEAD OF THE CURVE** — Gain knowledge of current methods and emerging technologies.
- **EXPAND YOUR CAPABILITIES** — Take on more automotive work with confidence and efficiency.
- **CONNECT & LEARN** — Engage in open discussion and learn from other automotive professionals.

**Programming with bypass methods for Dodge, Jeep, Chrysler, Toyota, Nissan, and VW.**
**When and how to use key emulators for Ford, Toyota, and Subaru.**
**Pulling Pin Codes on newer Hyundai, Kia vehicles**
**MYKEYsPro overview and demonstrations to know when you'll need to use bypass or emulator tools**
**Transponder Key Cloning with Smart Arial and GTI Pro Chips**
**Hands-on Vehicle Programming Demo focusing on latest development. Specific vehicle TBD.**
